

A

ALFRA HYDRAULIC CABLE CUTTER – AKS 85

Ideal for cutting cables up to \varnothing 85 mm

Advantages

- Guided cutting knife.
- Independently applicable in every position.
- Clean cuts with minimum deformation.
- The cable cutter AKS 85 can be operated with the electrohydraulic pump Prod.-No. 02027 or with the foot pump Prod.-No. 02121.

Application areas:

Energy companies, power distributor construction, communication technology, telecommunications, municipal works and their service providers, crane construction, mining, shipbuilding, maintenance or repair etc.

Technical Data:

Cutting force:	55 kN
Cutting pressure:	700 bar
Weight:	6.3 kg
Length:	450 mm

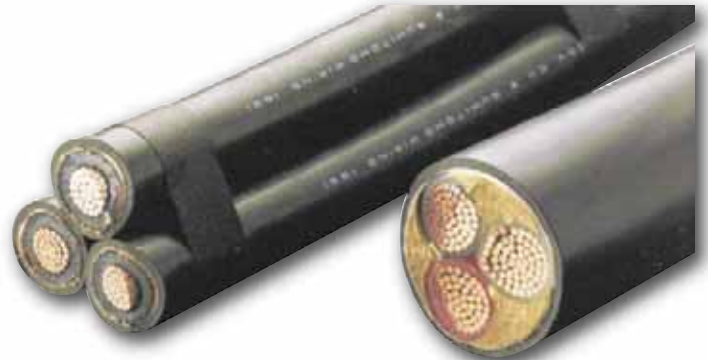

Cutting power:

Telephone cable:	up to \varnothing 85 mm
Electric cable with armour:	up to \varnothing 85 mm
Insulated aluminium cable: (Earthing cable)	3 x 240 mm ²
Insulated aluminium cable: (Single conductor)	630 mm ²
Aluminium rope:	up to \varnothing 46 mm
Copper rope:	up to \varnothing 28 mm

Please name us your exact cable type (fine wire, solid, insulated...) – then we can check the cutting power.

Prod.-No. 04002

Prod.-No.

Hydraulic cable cutter AKS 85
Delivery in canvas bag incl. quick coupling

04002

ALFRA HYDRAULIC HAND CABLE CUTTER – HKS 85

With integrated hand hydraulics for cutting cables up to \varnothing 85 mm

The most convenient working position can be selected through the hydraulics integrated in the rotateable handle.

The cable cutter can be used, independent of hydraulic pumps, on scaffolds, high-voltage poles or in shafts etc.

Application areas:

Energy companies, power distributor construction, communication technology, telecommunications, municipal works and their service providers, crane construction, mining, shipbuilding, maintenance or repair etc.

Technical Data:

Cutting force:	55 kN
Cutting pressure:	700 bar
Weight:	6.6 kg
Length:	740 mm

The cutting power data correspond to type AKS 85.

Prod.-No. 04015 Head can be rotated through 320°
